Priya Sharma | AI & Machine Learning Scientist

Professional Summary

Machine Learning Specialist and Data Scientist with deep expertise in generative AI, large language models (LLMs), natural language processing (NLP), and predictive modeling. Passionate about applying AI to solve real-world problems.

Technical Competencies

Machine Learning: PyTorch, TensorFlow, Scikit-Learn, Hugging Face, XGBoost
Data Science & Analytics: Pandas, NumPy, SciPy, Matplotlib, SQL, BigQuery
MLOps & Tools: MLflow, Docker, ChromaDB, Weights & Biases, Git
Domains: Generative AI, Retrieval-Augmented Generation (RAG), Computer Vision, Time-Series Forecasting

Work Experience

Lead AI Engineer | DeepCognition Labs (2023 - Present)
- Engineered an enterprise RAG knowledge engine utilizing ChromaDB and Gemini embeddings.
- Fine-tuned open-source LLMs on custom industry datasets, increasing response accuracy by 28%.

Data Scientist | FinTech Analytics (2021 - 2023)
- Built real-time fraud detection algorithms saving over $1.2M annually.
- Created automated data pipelines processing 10TB+ daily financial transactions.

Education & Academic Background

Master of Science (M.S.) in Data Science & Artificial Intelligence
Institute of Technology | Focus: Deep Learning & Statistical Inference
